SUBJECT : Proposed Agenda for Breakfast Meeting with Defense,
16 July 1982

1. The following items have been proposed by Defense.

[] will pull together some thoughts for you on this subject and you have the results of the SSG meeting on Monday to draw upon for your discussion.

25X1

-- Lebanon.

Even though Defense has raised this and the previous topic you will probably want to weigh in on the prospects for the PLO and the resolution of the crisis.

-- Radio-Marti.

Defense will brief on the status of this program. Meanwhile, [] has provided the latest he has been able to learn about the status of the proposal on the Hill.

25X1

-- DoD HUMINT Program/ISA and Revision of DCID 5-2.

This is a subject we had thought about raising last week but Defense indicated they were not yet ready. They are now prepared to discuss this with you. They will report on General Stilwell's HAC testimony of today and will probably raise the possibility of a MOU to cover the coordination of foreign liaison activities.
